6 **permit shall prosecute** the construction of any proposed irrigation or other work [*shall be prose-*

8 time, as fixed in the permit by the Water Resources Department, not to exceed five years from the
9 date of approval.

10 “(2) **The holder of a permit for municipal use shall commence and complete the con-**
11 **struction of any proposed works within 20 years from the date on which a permit for mu-**

13 **extension of time to complete construction or to perfect a water right beyond the time**
14 **specified in the permit under the following conditions:**

15 “(a) **The holder shows good cause. In determining the extension, the department shall**
16 **give due weight to the considerations described under ORS 539.010 (5) and to whether other**
17 **governmental requirements relating to the project have significantly delayed completion of**
18 **construction or perfection of the right; and**

19 “(b) **The extension of time is conditioned to provide that the holder may divert water**
20 **beyond the maximum rate diverted for beneficial use before the extension only upon approval**
21 **by the department of a water management and conservation plan.**

22 “[2] (3) Except as provided in ORS 537.240 [*or*] **and 537.248 and subsection (2) of this**
23 **section**, the department, for good cause shown, shall order and allow an extension of time, including

10 the full rate and duty of water requested from the supplemental source and be otherwise ready,
11 willing and able to use the amount of water requested, up to the amount of water approved in the
12 water right permit. To obtain a certificate for a supplemental water right, the permittee is not re-
13 quired to have actually used water from the supplemental source if:

14 “(a) Water was available from the source of the primary water right and the primary water right
15 was used pursuant to the terms of the primary water right; or

26 and allow an extension of time, including an extension beyond the five-year period, for the com-
27 pletion of the well or other means of developing and securing the ground water or for complete
28 application of water to beneficial use. **In determining the extension, the department shall give**
29 **due weight to the considerations described under ORS 539.010 (5) and to whether other gov-**

32 “(2) **The holder of a permit for municipal use shall commence and complete the con-**
33 **struction of any proposed works within 20 years from the date on which the permit for mu-**
34 **nicipal use is issued under ORS 537.625. However, the department may order and allow an**
35 **extension of time to complete construction or to perfect a water right beyond the time**
36 **specified in the permit under the following conditions:**

37 “(a) **The holder shows good cause. In determining the extension, the department shall**
38 **give due weight to the considerations described under ORS 539.010 (5) and to whether other**
