15 **SECTION 8.** (1)(a) Upon petition by any interested party and following notice and inves-
16 tigation, the Public Utility Commission may exempt in whole or in part from regulation those
17 telecommunications services for which the commission finds that:

18 (A) Price or service competition exists;

19 (B) Telecommunications services can be demonstrated by the petitioner or the commis-
20 sion to be subject to competition; or

21 (C) The public interest no longer requires full regulation of the telecommunications ser-
22 vices.

23 (b) The commission may attach reasonable conditions to an exemption made under par-
24 agraph (a) of this subsection and may amend or revoke any order as provided in ORS 756.568.

25 (2) Upon petition by a telecommunications utility, and after notice and hearing, the
26 commission shall exempt a telecommunications service from regulation if the commission
27 finds that price or service competition exists.

28 (3) Prior to making the findings required by subsection (1) or (2) of this section, the
29 commission shall consider:

30 (a) The extent to which services are available from alternative providers in the relevant
31 market.

33 or substitutable at comparable rates and under comparable terms and conditions.

35 (d) Any other factors deemed relevant by the commission.

36 (4) A service that is deregulated under subsection (2) of this section may be reregulated,

39 interest.

40 **SECTION 9.** (1) If the Public Utility Commission determines that a product or service
41 offered by a telecommunications utility as part of local exchange telecommunications ser-
42 vices can be demonstrated by the utility to be subject to competition, or that a product or

44 file a price list with the commission.

45 (2) The price list shall contain the description, terms, conditions and prices of the service

1 or product described in subsection (1) of this section. No other schedule for price listed ser-
2 vices need be filed with the commission. The price list or any revision of the price list is not
3 subject to the provisions of ORS 759.180 to 759.190 and shall become effective immediately
4 upon filing with the commission unless a later date is specified.

13 **SECTION 10.** (1) If the Public Utility Commission determines that a product or service
14 offered by a telecommunications utility as part of interexchange telecommunications ser-

16 conditions that the commission determines are reasonable, may authorize the utility to file
17 a price list with the commission.

18 (2) The price list shall contain the description, terms, conditions and prices of the service
19 or product described in subsection (1) of this section. No other schedule for price listed ser-
20 vices need be filed with the commission. The price list or any revision of the price list is not
21 subject to the provisions of ORS 759.180 to 759.190 and shall become effective immediately
22 on filing with the commission unless a later date is specified.

23 (3) In determining whether a product or service is subject to competition, the commis-
24 sion shall consider:

25 (a) The extent to which services are available from alternative providers in the relevant
26 market.

27 (b) The extent to which services of alternative providers are functionally equivalent or
28 substitutable at comparable rates or under comparable terms and conditions.

29 (c) Existing economic or regulatory barriers to entry.

30 (d) Any other factors deemed relevant by the commission.

31 **SECTION 11.** Within 60 days of a filing under section 8, 9 or 10 of this 2005 Act, the Public
32 Utility Commission shall either determine the appropriateness of the filing or determine that
33 further investigation is necessary. If the commission determines that further investigation
34 is necessary, the commission may suspend operation of the filing for a period not longer than
35 five months from the end of the initial 60-day period. Upon a showing of good cause, any
36 party may request extension of the suspension period for an additional three months.

41 and not affiliated or under common control with any other kind of public utility providing service
42 in Oregon.

43 (2) Subject to subsection (6) of this section, ORS 759.375 to 759.393 do not apply to telecommu-

45 cess lines in Oregon and not affiliated or under common control with any other kind of public utility

1 providing service in Oregon.

2 (3) Subject to subsection (6) of this section, ORS [759.100 to 759.115 and] 759.300 to 759.360 do
3 not apply to telecommunications utilities or affiliated groups of telecommunications utilities serving
4 fewer than 50,000 access lines in Oregon and not affiliated or under common control with any other
5 kind of public utility providing service in Oregon.

6 (4) Upon petition by any telecommunications utility serving fewer than 50,000 access lines in
7 Oregon and affiliated or under common control with another public utility providing service in
8 Oregon, and a finding that such action is consistent with the public interest, the commission by or-
9 der may exempt such telecommunications utility from:

10 (a) ORS 759.180 to 759.190.

11 (b) ORS 759.375 to 759.393.

12 (c) ORS [759.100 to 759.115 and] 759.300 to 759.360.

13 (5) Upon petition by any telecommunications utility serving fewer than 50,000 access lines in
14 Oregon, and finding that such action is consistent with the public interest, the commission by order
15 may exempt such telecommunications utility from ORS 759.175 and 759.205 to 759.215.

16 (6) Upon petition by the telecommunications utility or upon petition by 10 percent of the then
17 current access line subscribers, or 500 subscribers, whichever is the lesser, of any telecommuni-
18 cations utility:

19 (a) Filed with the commission not less than 10 days prior to the proposed effective date of new
20 or revised tariff schedules, the commission may impose **all or part of** the procedures of ORS 759.180
21 to 759.190 [or any part thereof,] to any [such] **of the** schedules of a telecommunications utility ex-
22 empted from ORS 759.180 to 759.190 pursuant to this section.

23 (b) After notice and hearing and a finding that [such] **the** action is required by the public in-
24 terest, the commission may revoke any exemption granted pursuant to this section[, or any part
25 thereof,] or impose reasonable conditions upon the continued exercise [thereof] **of the exemption**.

26 (7) Any telecommunications utility for which an exemption from the application of ORS 759.180
27 to 759.190 is provided pursuant to this section shall notify its affected customers of any price in-
28 crease for intrastate telecommunications services at least 45 days prior to the proposed effective
29 date of the increase.

30 (8) Any telecommunications utility for which an exemption from the application of any statute
31 is provided pursuant to this section shall file with the commission an annual report that includes
32 copies of the income statement and balance sheet the telecommunications utility files with the
33 Federal Communications Commission. Each [such] telecommunications utility **described in this**
34 **subsection** shall notify customers that the income statement and balance sheet are on file with the
35 commission.

36 **SECTION 13.** ORS 759.050 is amended to read:

37 759.050. (1) As used in this section:

38 (a) "Competitive zone" means a telecommunications service area within all or part of a local
39 exchange, described both by service and territory, that has been designated a competitive zone by
40 the Public Utility Commission under subsection (2) or (4) of this section.

41 (b) "Competitive zone service" means a local exchange telecommunications service that the
42 commission has authorized to be provided within a competitive zone.

43 (c) "Essential function" means a functional component of a competitive zone service necessary
44 to the provision of the service by a telecommunications provider for which there is no adequate al-
45 ternative in terms of quality, quantity and price to the incumbent telecommunications utility.

1 (d) "Telecommunications utility" and "competitive provider" mean those entities that are clas-
2 sified as such by the commission under ORS 759.020. "Telecommunications provider" includes both
3 telecommunications utilities and competitive providers.

4 (2)(a) Notwithstanding the provisions of ORS 759.020 (3), the commission may certify one or
5 more persons, including another telecommunications utility, to provide local exchange telecommu-
6 nications service within the local exchange telecommunications service area of a certificated tele-
7 communications utility if the commission determines that *[such]* **the** authorization would be in the
8 public interest. For the purpose of determining whether *[such]* **the** authorization would be in the
9 public interest, the commission shall consider:

10 (A) The effect on rates for local exchange telecommunications service customers both within and
11 outside the competitive zone.

12 (B) The effect on competition in the local exchange telecommunications service area.

13 (C) The effect on access by customers to high quality, innovative telecommunications service in
14 the local exchange telecommunications service area.

15 (D) Any other facts the commission considers relevant.

16 (b) Upon certification of a telecommunications provider under paragraph (a) of this subsection,
17 the commission shall establish a competitive zone defined by the services to be provided by the
18 telecommunications provider and the geographic area to be served by the telecommunications pro-
19 vider. Price *[and]* **or** service competition within the meaning of *[ORS 759.030 shall]* **section 8 of this**
20 **2005 Act may** not be deemed to exist by virtue of the establishment of a competitive zone.

21 (c) At the time of certification of a telecommunications provider, or thereafter, the commission
22 may impose reasonable conditions upon the authority of the telecommunications provider to provide
23 competitive zone service within the competitive zone. **Reasonable conditions include** *[including]*,
24 but **are** not limited to, conditions:

25 (A) Designed to promote fair competition, such as interconnection[,]; and

26 (B) **Requiring** contributions of the type required of a telecommunications utility on account of
27 the provision of local exchange service, including those to the Residential Service Protection Fund
28 or the Telecommunication Devices Access Program.

29 (3) Upon demand, a competitive provider of competitive zone services shall make available to
30 the commission any information relating to competitive zone services that the commission requests.
31 Information provided to the commission by a competitive provider under this subsection shall be
32 confidential and *[shall]* **may** not be disclosed by the commission, except for regulatory purposes in
33 the context of a proceeding before the commission.

34 (4) Upon application by a telecommunications utility and a showing of competition within its
35 local exchange, whether or not from certificated providers, the commission may designate all or part
36 of the local exchange a competitive zone.

37 (5)(a) Except with respect to telecommunications utilities that are exempt from the provisions
38 of ORS 759.180 to 759.190, unless the commission determines that it is not in the public interest at
39 the time a competitive zone is created, upon designation of a competitive zone, price changes, ser-
40 vice variations and modifications of competitive zone services offered by a telecommunications util-
41 ity in the zone *[shall not be]* **are not** subject to ORS 759.180 to 759.190 and, at the
42 telecommunication utility's discretion, may be made effective upon filing with the commission.

43 (b) The price and terms of service offered by a telecommunications utility for a competitive zone
44 service within a competitive zone may differ from that outside of the zone. However, the price for
45 a competitive zone service within the zone may not be lower than the total service long run incre-

1 mental cost, for nonessential functions, of providing the service within the zone and the charges for
 2 essential functions used in providing the service, but the commission may establish rates for resi-
 3 dential local exchange telecommunications service at any level necessary to achieve the commis-
 4 sion's universal service objectives. Within the zone, the price of a competitive zone service, or any
 5 essential function used in providing the competitive zone service, may not be higher than those
 6 prices in effect when the competitive zone was established, unless authorized by the commission.

7 (c) The commission may revoke the exemption of a telecommunications utility from ORS 759.180
 8 to 759.190 if the commission finds that the utility has violated statutes, rules or conditions of the
 9 commission applicable to competitive zone services or that there has been a substantial change in
 10 the circumstances that prevailed at the time the competitive zone was first established.

11 (d) On the motion of a telecommunications provider or on its own motion, the commission may
 12 order a telecommunications utility to disaggregate and offer essential functions of the telecommu-
 13 nications utility's local exchange network.

14 (6) A decision of the commission, with respect to the terms and conditions under which com-
 15 petitive zone services may be offered within a competitive zone by a telecommunications utility, to
 16 authorize a competitor to provide service within the local exchange service area of a telecommuni-
 17 cations utility or to otherwise designate a competitive zone shall be subject to judicial review, but
 18 *[shall]* **may** not be stayed other than by order of the commission, except upon a showing by clear
 19 and convincing evidence that failure to stay the decision will result in irreparable harm to the
 20 aggrieved party.

21 (7) The exclusive remedy of a telecommunications provider aggrieved by the prices, terms of
 22 service or practices of another provider with respect to competitive zone services within a competi-
 23 tive zone *[shall be a complaint filed]* **is to file a complaint** with the commission under ORS 756.500.
 24 The commission, either upon complaint or its own motion, may permanently suspend a filing made
 25 by a provider with respect to a competitive zone service or take such other action as the commis-
 26 sion deems appropriate, except an award for damages. A claim for damages arising from a commis-
 27 sion decision in favor of the provider on a matter alleged in the complaint shall be brought as a
 28 separate action at law.

29 (8) Nothing in this section shall serve to shield any telecommunications provider of local ex-
 30 change telecommunications service from state or federal antitrust laws.

31 (9) The commission shall report annually to the Legislative Assembly:

32 (a) The number of competitive zones created under ORS 759.020 and 759.050;

33 (b) The number of competitive providers authorized under ORS 759.020 and 759.050;

34 (c) The number and types of competitive services made available to consumers; and

35 (d) Consumer comments on competitive telecommunications services.

36 **SECTION 13a.** ORS 759.195 is amended to read:

37 759.195. (1) Except as provided in subsection (6) of this section, upon petition of a telecommu-
 38 nications utility *[which]* **that** provides local exchange service directly, or is affiliated with a utility
 39 *[which]* **that** provides local exchange service, and after notice and hearing, the Public Utility Com-
 40 mission may authorize the utility to set rates for toll and other telecommunications services by filing
 41 a price list containing the price and terms for the service. The price list or any *[revisions thereof,*
 42 *shall not be]* **revision of the price list is not** subject to the provisions of ORS 759.180 to 759.190
 43 and shall become effective as determined by the commission. The commission may prescribe condi-
 44 tions on an authorization to establish rates by price list, including conditions relating to the sharing
 45 of revenues received by the utility *[which]* **that** are in excess of allowances provided for in the order

1 of authorization.

2 (2) Telecommunications utilities *[which]* **that** provide telecommunications services only between
3 exchanges and are not affiliated with a utility *[which]* **that** provides local exchange service[, *may*
4 *price list services*] **may establish rates by price list** without special authorization *[of]* **from** the
5 commission.

6 (3) Prior to granting a petition to set rates by price list under this section, the commission shall
7 find that pricing flexibility:

8 (a) Is reasonably necessary to enable the utility to respond to current and future competitive
9 conditions for any or all telecommunications services;

10 (b) Will maintain the appropriate balance between the need for price flexibility and the pro-
11 tection of consumers;

12 (c) Is likely to benefit the consumers of fixed rate services; and

13 (d) Is unlikely to cause any undue harm to any customer class.

14 (4) A rate set for a service by a utility *[shall]* **may** not be lower than the long run incremental
15 cost of providing the service.

16 (5) Upon its own motion the commission may fix maximum rate levels and terms of service for
17 price listed services and for toll services on noncompetitive routes. Upon request of any affected
18 person, the commission shall fix maximum rate levels and terms of service for price listed services
19 not subject to competition and for toll services on noncompetitive routes.

20 (6) By rule, the commission shall designate local exchange services *[which]* **that** it deems es-
21 sential, and rates for such services shall be prescribed under ORS 759.180 to 759.190. *[Rates for es-*
22 *sential services need not be designed to recover the cost of service of such services, but may be*
23 *supported by revenues from other regulated telecommunication services of the utility or its affiliates.*
24 *Such support is in addition to any subsidy which may be provided under ORS 759.030 (9).]* The com-
25 mission also may authorize automatic adjustment clauses which reflect increases, decreases, or both,
26 in particular costs incurred by the utility. For the purposes of this subsection, “essential
27 services” need not be essential for all classes of customers.

28 (7) The commission may, at any time, order a telecommunications utility to appear and establish
29 that any[, *or all,*] of its price listed rates are just and reasonable and in conformity with the re-
30 quirements of this section and the authorization to price list issued by the commission. *[Such]* **Price**
31 **listed** rates shall also be subject to complaint under ORS 756.500.

32 **SECTION 13b.** ORS 759.255 is amended to read:

33 759.255. (1) In addition to powers vested in the Public Utility Commission under ORS 759.195,
34 and subject to the limitations contained in subsections (2) to (4) of this section, upon petition of a
35 telecommunications utility that provides local exchange service directly, or is affiliated with a util-
36 ity that provides local exchange service, the commission, after notice and hearing, may approve a
37 plan under which the commission regulates prices charged by the utility, without regard to the re-
38 turn on investment of the utility. Prices approved under the plan *[shall not be]* **are not** subject to
39 the provisions of ORS 759.180 to 759.190 and shall become effective as stated in the plan.

40 (2) Prior to granting a petition to approve a plan under subsection (1) of this section, the com-
41 mission must find that the plan is in the public interest. In making its determination the commission
42 shall consider, among other matters, whether the plan:

43 (a) Ensures prices for telecommunications services that are just and reasonable;

44 (b) Ensures high quality of existing telecommunications services and makes new services avail-
45 able;

1 (c) Maintains the appropriate balance between the need for regulation and competition; and

2 (d) Simplifies regulation.

3 (3) If the commission approves a plan under subsection (1) of this section, *[it]* **the commission**
4 shall establish objectives of the plan and conditions for review of the plan during *[its]* **the operation**
5 **of the plan**. The commission *[shall]* **may** not consider return on investment of the utility when *[it]*
6 **the commission** establishes objectives of the plan and conditions for review of the plan during
7 *[its]* **the operation of the plan**.

8 (4) A rate for any service in the plan authorized under subsection (1) of this section may not
9 be lower than the total service long run incremental cost, for nonessential functions, of providing
10 the service and the charges of essential functions used in providing the service. However, the com-
11 mission may allow a telecommunications utility to establish rates for residential local exchange
12 service at any level necessary to achieve the commission's universal service objectives.

13 (5) If the commission approves a plan under subsection (1) of this section, the commission may
14 waive, in whole or in part, compliance by the telecommunications utility with ORS *[759.100, 759.110*
15 *to]* **759.120, 759.125, 759.130, 759.135, 759.180 to 759.205, 759.215, 759.220, 759.285 and 759.300 to**

22 **RATE REGULATION AND PROCEDURES**

23
24 **SECTION 15. ORS 759.175 is amended to read:**

25 759.175. (1) Every telecommunications utility shall file with the Public Utility Commission,
26 within a time to be fixed by the commission, schedules *[which shall be open to public inspection,]*
27 showing all rates, tolls and charges *[which it]* **that the utility** has established and *[which]* **that** are
28 in force at the time for any service performed by *[it]* **the utility** within the state, or for any service
29 in connection *[therewith]* **with** or performed by any *[telecommunications]* utility controlled or oper-
30 ated by *[it]* **the utility**. **Schedules filed with the commission shall be open to public inspection.**

31 (2) Every telecommunications utility shall file, with and as part of every *[such]* schedule **filed**
32 **under subsection (1) of this section**, all rules and regulations that in any manner affect the rates
33 charged or to be charged for any service. *[Every telecommunications utility shall also file with the*
34 *commission copies of interstate rate schedules and rules and regulations issued by it or to which it is*
35 *a party.]*

36 (3) Where a schedule of joint rates or charges is or may be in force between two or more tele-
37 communications utilities, *[such schedules]* **the schedule** shall in like manner be printed and filed
38 with the commission.

39 **SECTION 16. ORS 759.180 is amended to read:**

40 759.180. (1)(a) Except as provided in ORS *[759.030 and]* 759.195 **and 759.410 and section 8, 9**
41 **or 10 of this 2005 Act**, whenever any telecommunications utility files with the Public Utility Com-
42 mission any rate or schedule of rates stating or establishing a new rate or schedule of rates or in-
43 creasing an existing rate or schedule of rates, the commission may, either upon written complaint
44 or upon the commission's own initiative, after reasonable notice, conduct a hearing to determine the
45 propriety and reasonableness of *[such]* **the** rate or schedule. The commission shall conduct *[such a]*

1 **the** hearing upon written complaint filed by the telecommunications utility, its customer or cus-
 2 tomers, or any other proper party within 60 days of the telecommunications utility's filing[; *provided*
 3 *that no*]. **A** hearing need **not** be held if the particular rate change is the result of an automatic ad-
 4 justment clause. At [*such*] **the** hearing the telecommunications utility shall bear the burden of
 5 showing that the rate or schedule of rates proposed to be established or increased or changed is just
 6 and reasonable.

7 **(b) As used in this subsection,** [*The term*] "automatic adjustment clause" means a provision
 8 of a rate schedule, authorized pursuant to ORS 759.195 (6), [*which*] **that** provides for rate increases,
 9 [*or*] decreases or both, without prior hearing, reflecting increases, decreases or both in costs in-
 10 curred by a telecommunications utility and [*which*] **that** is subject to review by the commission at
 11 least once every two years.

12 (2) The commission and staff may consult at any time with, and provide technical assistance to,
 13 telecommunications utilities, their customers, and other interested parties on matters relevant to
 14 utility rates and charges. If a hearing is held with respect to a rate change, the [*commission's*] de-
 15 cisions **of the commission** shall be based on the record made at the hearing.

16 **NOTE:** Section 17 was deleted by amendment. Subsequent sections were not renumbered.

17 **SECTION 18.** ORS 759.210 is amended to read:

18 759.210. (1) The Public Utility Commission shall provide for a comprehensive classification of
 19 service for each telecommunications utility [*and such*]. **The** classification may take into account the
 20 quantity used, the time when used, the purpose for which used, the existence of price competition
 21 or a service alternative, the services being provided, the conditions of service and any other rea-
 22 sonable consideration. Based on [*such*] **these** considerations the commission may authorize classi-
 23 fications or schedules of rates applicable to individual customers or groups of customers. [*The*
 24 *service classifications and schedule forms shall be designed consistently with the requirements of ORS*
 25 *469.010.*] Each telecommunications utility is required to conform its schedules of rates to such clas-
 26 sification. If the commission determines that a tariff filing under ORS 759.175 results in a rate
 27 classification primarily related to price competition or a service alternative, the commission, at a
 28 minimum, shall consider the following:

29 (a) Whether the rate generates revenues at least sufficient to cover relevant short and long run
 30 costs of the utility during the term of the rates; and

31 (b) Whether the rate generates revenues sufficient to insure that just and reasonable rates are
 32 established for remaining customers of the telecommunications utility.

33 (2) The commission may prescribe [*such*] **any** changes in the form in which the schedules are
 34 issued by any telecommunications utility as [*may be found*] **the commission finds** to be expedient.
 35 The commission shall adopt rules [*which*] **that** allow any person who requests notice of tariff filings
 36 described under subsection (1) of this section to receive such notice.

37 **SECTION 19.** ORS 759.215 is amended to read:

38 759.215. (1) A copy of so much of all schedules, including schedules of joint rates and charges,
 39 as the Public Utility Commission deems necessary for the use of the public, shall be [*printed in plain*
 40 *type and kept on file in every business office of such telecommunications utility, open to the public, and*
 41 *in such form and place as to be readily accessible to the public for convenient inspection*] **made**
 42 **available to the public.**

43 (2) **Except as provided in ORS 759.410 (8),** copies of all new schedules shall be [*filed in every*
 44 *business office of such telecommunications utility*] **made readily accessible to the public as re-**
 45 **quired by the commission** 30 days prior to the time the schedules are to take effect, unless the

1 commission prescribes a shorter time.

2 **NOTE:** Section 20 was deleted by amendment. Subsequent sections were not renumbered.

4 **TRANSACTIONS OF UTILITIES**

5
6 **SECTION 21.** ORS 759.385 is amended to read:

7 759.385. (1) When any telecommunications utility doing business in this state, **except a tele-**
8 **communications carrier that has elected to be subject to ORS 759.405 and 759.410**, enters into
9 a contract with another corporation with relation to the construction, operation, maintenance or
10 use of the property of *[said]* **the** telecommunications utility in Oregon, or the use of the property
11 of the other contracting party, or any part *[thereof]* **of the property**, or for service, advice, engi-
12 neering, financing, rentals, leasing or for any construction or management charges *[in respect of any*
13 *such]* **with respect to any of the** property, or for the purchase of property, materials or supplies,
14 the proposed contract shall be filed with the Public Utility Commission for the investigation and
15 approval when the telecommunications utility owns a majority of or controls directly or indirectly
16 the voting stock of the other contracting corporations.

17 (2) Any *[such]* proposed contract **described in subsection (1) of this section** shall be filed with
18 the commission within 90 days of execution of the contract. The contract shall be deemed to be
19 executed on the date the parties sign a written contract or on the date the parties begin to transact
20 business under the contract, whichever date is earlier. The commission shall promptly investigate
21 and act upon the contract in accordance with ORS 759.390 *[(3) and (6)]* **(4) and (7)**.

22 (3) In making *[such]* **an investigation of the contract**, the commission and accountants, exam-
23 iners and agents, appointed by the commission for the purpose, shall be given free access to all
24 books, books of account, documents, data and records of the telecommunications utility, as well as
25 of the corporation with which it is proposing to contract, *[which]* **that** the commission may deem
26 material to the investigation. The failure or refusal of either of the parties to the proposed contract
27 to comply with this subsection is prima facie evidence that *[such]* **the** contract is unfair, unreason-
28 able and contrary to public interest, and is sufficient to justify a determination and finding of the
29 commission to that effect, *[which]*. **A determination and finding by the commission under this**
30 **subsection** has the same force and effect as any other determination or order of the commission.

31 (4) This section applies only to transactions in which the telecommunications utility's Oregon
32 intrastate expenditure to the affiliate is more than \$100,000.

33 **SECTION 22.** ORS 759.390 is amended to read:

34 759.390. (1) **As used in this section, "affiliated interest" with a telecommunications utility**
35 **means:**

36 (a) **Every person owning or holding directly or indirectly five percent or more of the**
37 **voting securities of the telecommunications utility.**

38 (b) **Every person in any chain of successive ownership of five percent or more of the**
39 **voting securities of the telecommunications utility.**

40 (c) **Every corporation five percent or more of whose voting securities are owned by any**
41 **person owning five percent or more of the voting securities of the telecommunications utility**
42 **or by any person in any chain of successive ownership of five percent or more of the voting**
43 **securities of the telecommunications utility.**

44 (d) **Every individual who is an officer or director of the telecommunications utility or of**
45 **any person in any chain of successive ownership of five percent or more of the voting secu-**

1 **rities of the telecommunications utility.**

2 (e) **Every corporation that has two or more officers or two or more directors in common**
3 **with the telecommunications utility.**

4 (f) **Every entity, five percent or more of which is directly or indirectly owned by a tele-**
5 **communications utility.**

6 (g) **Every person that the Public Utility Commission determines as a matter of fact, after**
7 **investigation and hearing, actually is exercising any substantial influence over the policies**
8 **and actions of the telecommunications utility, even though the influence is not based upon**
9 **stockholdings, stockholders, directors or officers to the extent specified in this section.**

10 (h) **Every person that the commission determines as a matter of fact, after investigation**
11 **and hearing, actually is exercising such substantial influence over the policies and actions**
12 **of the telecommunications utility in conjunction with one or more other persons with whom**
13 **they are related by ownership or blood or by action in concert that together they are affil-**
14 **iated with the telecommunications utility within the meaning of this section even though no**
15 **one of them alone is so affiliated.**

16 [(1)] (2) When any telecommunications utility doing business in this state, **except a telecom-**
17 **munications carrier that has elected to be subject to ORS 759.405 and 759.410**, enters into any
18 contract to make any payment, directly or indirectly, to any person [*or corporation*] having an af-
19 filiated interest, for service, advice, auditing, accounting, sponsoring, engineering, managing, oper-
20 ating, financing, legal or other services, or [*enter*] **enters** any [*charges therefor on its books, which*
21 *shall*] **charge on the books of the utility, and the contract is to** be recognized as an operating
22 expense or capital expenditure in any rate valuation or any other hearing or proceeding, the con-
23 tract shall be filed with the [*Public Utility*] commission within 90 days of execution of the contract.
24 The contract shall be deemed to be executed on the date the parties sign a written contract or on
25 the date the parties begin to transact business under the contract, whichever date is earlier.

26 [(2)] (3) When any telecommunications utility doing business in this state [*shall enter*] **enters**
27 into any contract, oral or written, with any person [*or corporation*] having an affiliated interest re-
28 lating to the construction, operation, maintenance, leasing or use of the property of [*such*] **the**
29 telecommunications utility in Oregon, or the purchase of property, materials or supplies[, *which*
30 *shall*] **that is to** be recognized as the basis of an operating expense or capital expenditure in any
31 rate valuation or any other hearing or proceeding, the contract shall be filed with the commission
32 within 90 days of execution of the contract. The contract shall be deemed to be executed on the
33 date the parties sign a written contract or on the date the parties begin to transact business under
34 the contract, whichever date is earlier.

35 [(3)] (4) [*When any such contract has been submitted to the commission,*] The commission promptly
36 shall examine and investigate [*it*] **any contract submitted to the commission under subsection**
37 **(2) or (3) of this section.** If, after [*such*] **the** investigation, the commission determines that it is fair
38 and reasonable and not contrary to the public interest, the commission shall enter findings and or-
39 der [*to this effect*] **approving the contract** and serve a copy [*thereof*] **of the findings and order**
40 upon the telecommunications utility.[, *whereupon*] **Following the commission's determination of**
41 **fairness and reasonableness**, any expenses and capital expenditures incurred by the telecommu-
42 nications utility under the contract may be recognized in any rate valuation or other hearing or
43 proceeding. If, after [*such*] **the** investigation, the commission determines that the contract is not fair
44 and reasonable in all its terms and is contrary to the public interest, the commission shall enter
45 findings and order [*accordingly*] **disapproving the contract** and serve a copy [*thereof*] **of the**

1 **findings and order** upon the telecommunications utility[, *and*]. Except as provided in subsection
2 [(4)] (5) of this section, it [*shall be*] **is** unlawful to recognize [*the*] **a disapproved** contract for the
3 purposes specified in this section.

4 [(4)] (5) When any [*such*] contract **described in subsection (2) or (3) of this section** has been
5 filed with the commission within 90 days of execution and the commission has not entered an order
6 disapproving the contract under subsection [(3)] (4) of this section, the commission [*shall*] **may** not
7 base its refusal to recognize any expenses or capital expenditures incurred under the contract in
8 any rate valuation or other hearing or proceeding solely on the basis that [*such*] **the** contract has
9 not been approved under subsection [(3)] (4) of this section.

10 [(5)] (6) [*No telecommunications utility shall*] **A telecommunications utility may not** issue notes
11 or loan its funds or give credit on its books or otherwise to any person [*or corporation*] having an
12 affiliated interest, either directly or indirectly, without the approval of the commission.

13 [(6)] (7) The action of the commission with respect to all the matters described in this section
14 [*when submitted to the commission,*] shall be by findings and order to be entered within 90 days after
15 the matter has been submitted to the commission for consideration[, *and*]. The findings and order
16 of the commission with respect to any [*of such matters*] **matter described in this section** shall [*be*
17 *and*] remain in full force and effect[, *unless and*] until set aside [*by suit brought and prosecuted, as*
18 *provided in*] **in a suit under ORS 756.580 to 756.610**[, *and*]. The telecommunications utility, or any
19 other person [*or corporation*] affected by [*any such*] **a findings and order by the commission under**
20 **this section**, may bring [*and prosecute such suit*] **a suit against the commission contesting the**
21 **findings and order under ORS 756.580 to 756.610**.

22 [(7)] (8) This section applies only to transactions in which the telecommunications utility's
23 Oregon intrastate expenditure to the affiliate is more than \$100,000.

24
25 **ALTERNATIVE PRICE CAP REGULATION**

26
27 **SECTION 23.** ORS 759.410 is amended to read:

28 759.410. (1) It is the intent of the Legislative Assembly that:

29 (a) The State of Oregon cease regulation of telecommunications carriers on a rate of return
30 basis;

31 (b) Telecommunications carriers subject to rate of return regulation have the ability to opt out
32 of rate of return regulation;

33 (c) A telecommunications carrier that opts out of rate of return regulation under this section
34 and ORS 759.405 shall be subject to price cap regulation and the carrier under price cap regulation
35 shall continue to meet service quality requirements; and

36 (d) Telecommunications carriers that opt out of rate of return regulation under this section and
37 ORS 759.405 shall make payments to the state to support the use of advanced telecommunications
38 services and to support deployment of advanced telecommunications services.

39 (2) A telecommunications carrier that elects to be subject to this section and ORS 759.405 shall
40 be subject to price regulation as provided in this section and shall not be subject to any other retail
41 rate regulation, including but not limited to any form of earnings-based, rate-based or rate of return
42 regulation.

43 (3) The price a telecommunications utility that elects to be subject to this section and ORS
44 759.405 may charge for basic telephone service shall be established by the Public Utility Commission
45 under ORS 759.425. Subject to ORS 759.415, the regular tariff rate of intrastate switched access and

1 retail telecommunications services regulated by the commission, other than basic telephone service,
2 in effect on the date the carrier elects to be subject to this section and ORS 759.405 shall be the
3 maximum price the telecommunications carrier may charge for that service.

4 (4) A telecommunications carrier that elects to be subject to this section and ORS 759.405 may
5 adjust the price for intrastate switched access or a regulated retail telecommunications service be-
6 tween the maximum price established under this section and a price floor equal to the sum of the
7 total service long run incremental cost of providing the service for the nonessential functions of the
8 service and the price that is charged to other telecommunications carriers for the essential func-
9 tions. Basic telephone service shall not be subject to a price floor.

10 (5) The price for a new regulated retail telecommunications service introduced by a telecom-
11 munications carrier within four years after the date the carrier elects to be subject to this section
12 and ORS 759.405 shall be subject to a price floor test by the commission to ensure that the service
13 is not priced below the sum of the total service long run incremental cost of providing the service
14 for the nonessential functions of the service and the price that is charged to other telecommuni-
15 cations carriers for the essential functions. Beginning on the date four years after September 1,
16 1999, the price of a new telecommunications service shall be subject to a price floor test by the
17 commission to ensure that the service is not priced below the total service long run incremental cost
18 of providing the service, without regard to whether the service is considered essential or nones-
19 sential.

20 (6) A telecommunications carrier that elects to be subject to this section and ORS 759.405 may
21 package and offer any of its retail telecommunications services with any other service at any price,
22 provided the following conditions apply:

23 (a) Any regulated telecommunications service may be purchased separately at or below the
24 maximum price.

25 (b) The price of the package is not less than the sum of the price floors of each regulated retail
26 telecommunications service included in the package.

27 (c) The price of a package that is comprised entirely of regulated retail telecommunications
28 services does not exceed the sum of the maximum prices for each of the services.

29 (d) The price of a package comprised of regulated and unregulated retail telecommunications
30 services does not exceed the sum of the maximum prices established under this section for regulated
31 services and the retail price charged by the carrier for the individual unregulated services in the
32 package. A telecommunications carrier subject to regulation under this section shall provide notice
33 to the commission within 30 days of a change in the price of an unregulated telecommunications
34 service contained in the package.

35 (7) Nothing in this section or ORS 759.405 is intended to limit the ability of a telecommuni-
36 cations carrier to seek deregulation of telecommunications services under [ORS 759.030] **section 8**
37 **of this 2005 Act.**

38 (8)(a) Notice of a price change authorized under subsection (4) of this section, of the introduc-
39 tion of a new regulated telecommunications service or of the packaging of services, must be given
40 to the commission within 30 days following the effective date of the price change, new service or
41 packaged service. Notice of a new regulated telecommunications service shall indicate the retail
42 price charged by the carrier for the service.

43 (b) The commission may investigate any price change authorized under subsection (4) of this
44 section, the price of a new regulated telecommunications service or the price of a package of ser-
45 vices to determine that the price complies with the provisions of this section and any other appli-

1 cable law. If the commission determines that the price of the service or package of services does
2 not comply with the provisions of this section or other applicable law, the commission may order
3 the telecommunications carrier to take such action as the commission determines necessary to bring
4 the price into compliance with this section or other applicable law.

5 (9) Nothing in this section affects the authority of a city or municipality to manage the public
6 rights of way or to require fair and reasonable compensation from a telecommunications carrier, on
7 a competitively neutral and nondiscriminatory basis, under ORS 221.420, 221.450, 221.510 and
8 221.515.

9 (10) Notwithstanding any other provision of this section, the commission shall establish prices
10 for extended area service in a manner that allows a telecommunications carrier that elects to be
11 subject to this section and ORS 759.405 to recover all costs and lost net revenues attributable to
12 implementing new extended area service routes. The provisions of this subsection apply to telecom-
13 munications service provided on a flat or measured basis between exchanges defined by exchange
14 maps filed with and approved by the commission.

15

34 **cations [utility] service" does not include service provided through or by the use of any equipment,**
35 **plant or facilities:**

37 but are not used to provide service in or do not terminate in an area allocated to another person
38 providing a similar *[utility]* **telecommunications** service;

12 **communications utilities, cooperative corporations or municipalities granted by the com-**
13 **mission prior to January 1, 2006. An allocation made pursuant to this subsection is not**
14 **subject to ORS 759.535 or 759.560. The commission has authority under ORS 756.500 to 756.610**
15 **to resolve a dispute arising from a reallocation made under this subsection.**

16 **(2) Upon request, allocate every local exchange telecommunications service territory that**

19 **map. An allocation made pursuant to this subsection is not subject to ORS 759.535 or 759.560.**

33 **days of the notice, the commission shall hold a hearing by telephone or in person. The commission**
34 **shall give notice of the hearing within 30 days of the request [which]. The notice shall set the date**

9 complaint has been filed, or if the complaint has not been filed, if the public body shows that such
10 litigation is reasonably likely to occur. This exemption does not apply to litigation which has been
11 concluded, and nothing in this subsection shall limit any right or opportunity granted by discovery
12 or deposition statutes to a party to litigation or potential litigation;

43 that such information is in a form which would permit identification of the individual concern or
44 enterprise. This exemption does not include records submitted by long term care facilities as defined
45 in ORS 442.015 to the state for purposes of reimbursement of expenses or determining fees for pa-
