Representative Vicki Berger to Tour Liberty House

Salem, OR -- Representative Vicki Berger will be touring the Liberty House in West Salem on Wednesday, January 29. An invitation was extended to Representative Berger to visit the facility by Candy Solovjovs, Executive Director of the Liberty House. "I am concerned for abused children in my district and this is the kind of cooperative agency that supports children and families in the Salem area," Berger said.

The Liberty House provides medical evaluations and family support services for children for whom there are concerns of abuse and neglect. Over 300 children and families receive help each year. The Liberty House provides a comfortable, child-friendly setting where a network of specialists work together to minimize trauma experienced by children, and help children and families begin the process of healing.
